FEEDBACK AND ISSUES:

BRIEF DESCRIPTION:

The customer navigates to home page and decides to view tour feedback or raise issues if he/she has any. After viewing tour feedback, customer can write his/her feedback if they have gone to any tour. If the feedback is inappropriate, it will be rejected and if it is appropriate, it will be accepted.
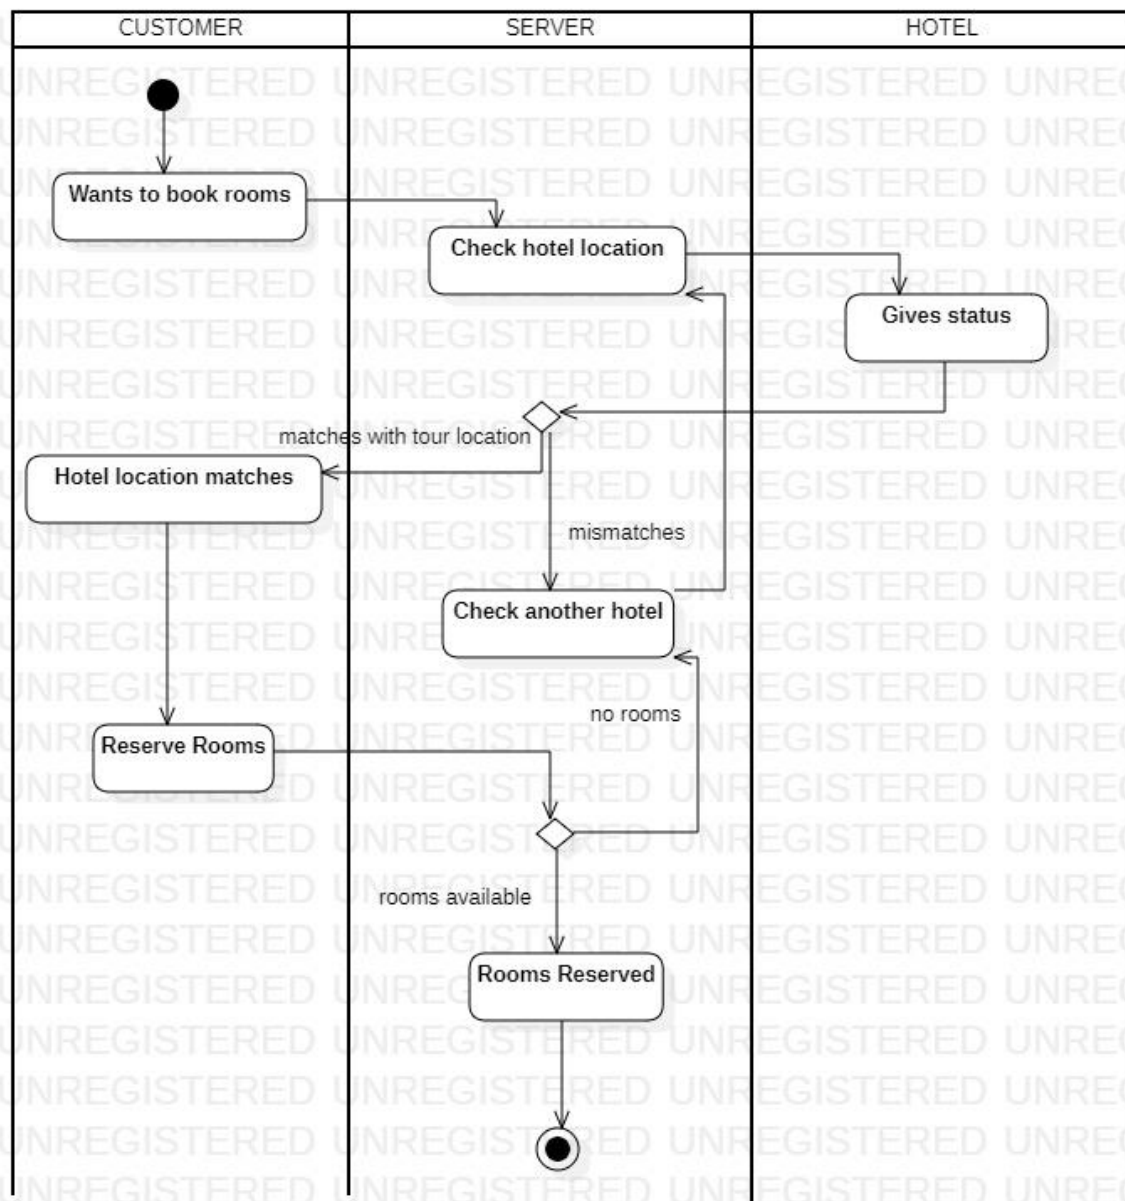

GUIDE RESERVATION:

The diagram shows an activity diagram with three swimlanes: CUTOMER, SERVER, and GUIDE.

- Wants to book a guide
- Check guide availablity
- Gives status
- if yes — available
- Guide is available
- not available
- Check another guide
- Contact guide
- customer doesnt like guide
- if no — cutomer likes guide
- Reserve guide

BRIEF DESCRIPTION:

The customer wants to book a guide for a tour. Firstly, the customer checks the availability of the guide and if the guide is available, he selects the guide and contacts the guide. If the customer likes the guide, the guide is reserved. If the guide is not available or if the customer doesn't like the guide, the guide is rejected and the reservation process is done again.

Reserve Rooms

no rooms

rooms available

Rooms Reserved

BRIEF DESCRIPTION:

The customer wants book the rooms in a hotel. Firstly, the customer checks the available hotel in the tour location and if it is available and if the rooms are also available, the customer books the room. If the particular hotel is not available in the tour location or if the rooms are not available in that hotel, the hotel is not selected. The booking of hotel rooms is done again.

VIEW TOUR DETAILS:
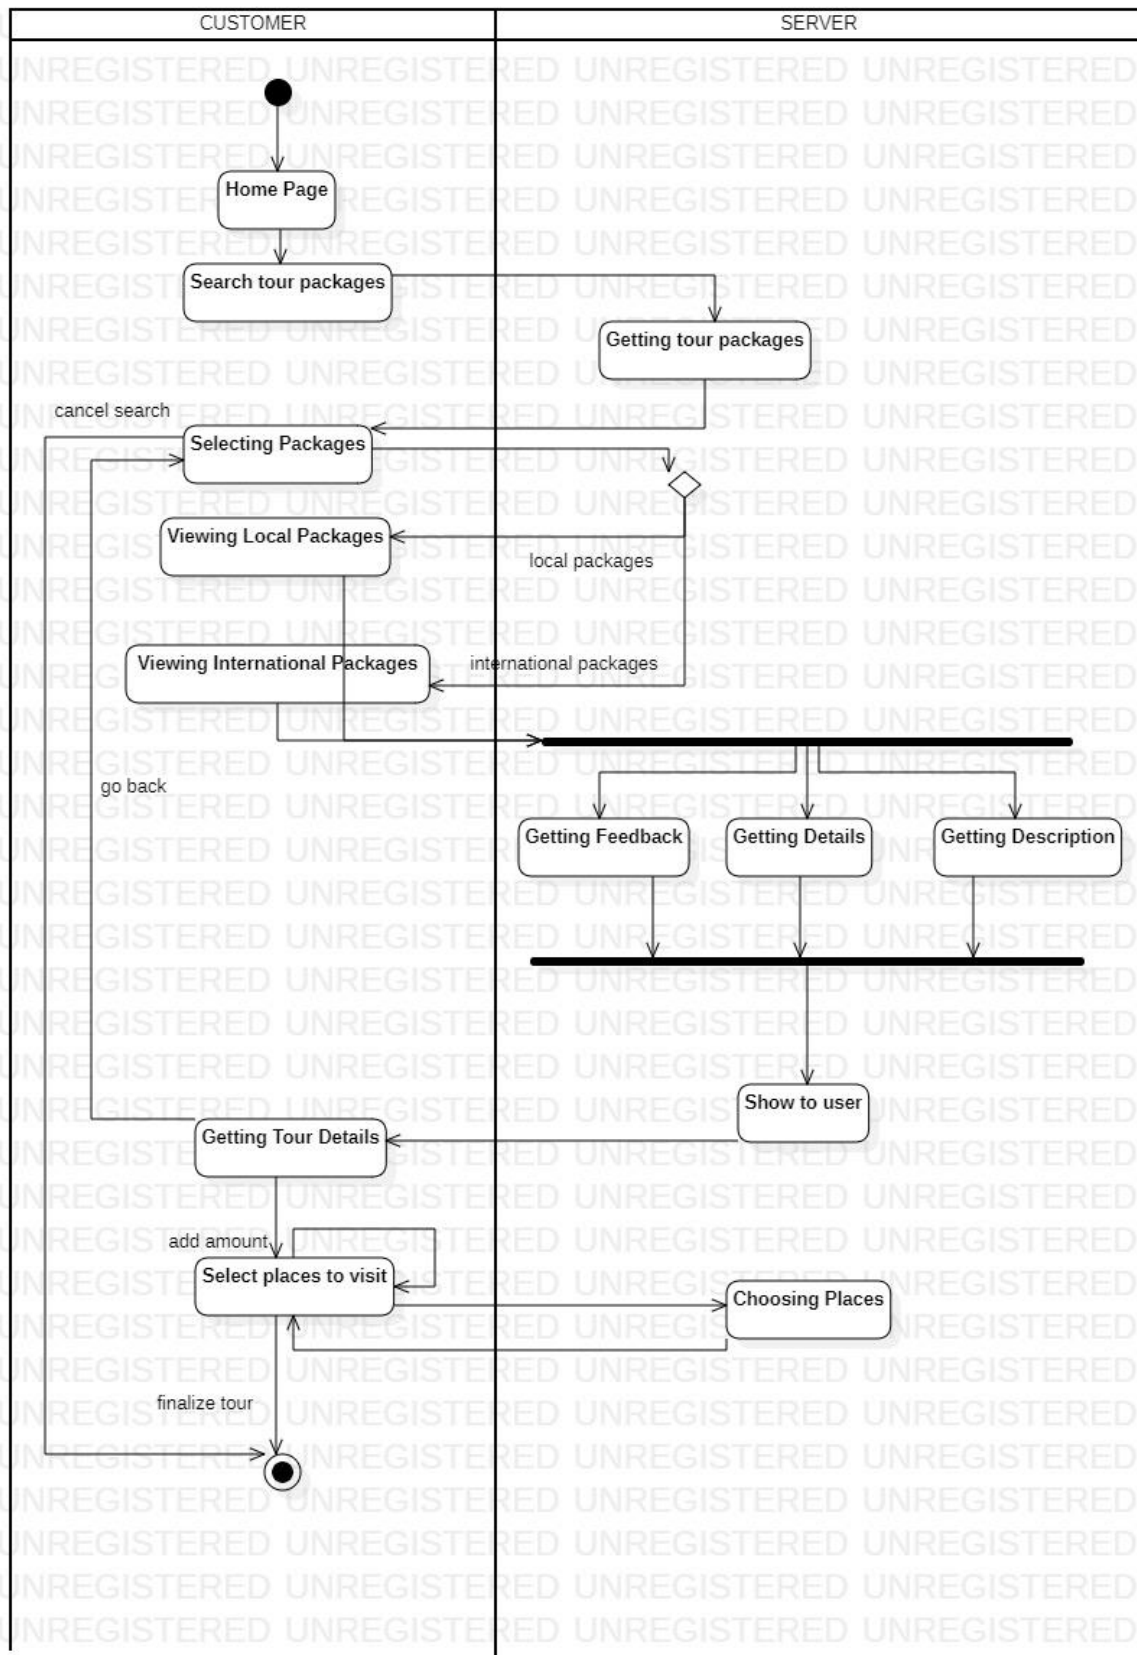

BRIEF DESCRIPTION:

The customer navigates to the home page and starts searching the tour. The customer views local or international tour packages and selects any one and then the customer views the description about that place, the feedback given to that place and any other tour details and selects the places to visit from the selected package and amount for the selected places is added and then the customer finalizes the tour. The customer can cancel the search if he/she wants.
